**1. Mission.** The 668th Logistics Squadron (668 LS) provides engineering and installation (E&I) and Mobile Engineering, Alteration, and Repair (MEAR) support to HQ Air Intelligence Agency (AIA), AIA field units worldwide, the National Security Agency, and other customers in executing the AIA information operations mission. Responsible for contracting guidance, training, procurement planning, and technical assistance to all customers. The unit is responsible for procurement of communications computer systems in support of mission requirements related to intelligence, communications, computers, antennas, networks, and associated support elements.

**2. Command.** The 668 LS is a direct reporting unit to the HQ AIA/LG (Logistics Directorate).

**3. Responsibilities.** The 668 LS:

- 3.1. Performs project management oversight and execution for engineering and installation of command, control, communications, computer and intelligence systems, and facility renovations and upgrades of AIA sensitive compartmented information facilities.
- 3.2. Procures, stores, and distributes materials in support of E&I and MEAR operations.
- 3.3. Provides engineering services to include: construction, evaluations, inspections, and scheme development for execution by E&I, MEAR, and other activities.
- 3.4. Provides communications-computer systems equipment and inventory management, procurement support, and contract oversight services for HQ AIA and collocated units and AIA units in support of the AIA operational mission.

3.5. Provides a contracting activity to acquire the supplies and services essential to the information operations missions of HQ AIA and AIA units.

MORGAN M. BECK  
Director of Plans and Requirements
